

Ratidzo Trust

Ratidzo Trust Objectives

- To prevent or relieve poverty or financial hardship for vulnerable peoples, orphans (HIV/AIDS & Conflict), the elderly and those living with disabilities around the world by helping them generate a sustainable income and be self-sufficient.
- To advance the education of pupils at schools in rural areas around the world by providing and assisting in the provision of facilities for education at the schools.
- To promote sustainable development for the benefit of the public by relieving poverty and the improvement of the conditions of life in socially and economically disadvantaged communities. Meeting the needs of the present without compromising the ability of future generations to meet their own needs.

Richard and Edline are based in Zimbabwe and work in 'Sanyati'. Sanyati is a rural resettlement area, one of the first resettlement schemes to be established after independence. The area is arid and drought resistant crops such as cotton provide an important source of income in an area that otherwise experiences very high level of poverty.

'The Hive'

Community Training Centre

Our charity has recently been fortunate to purchase 10 acres of land with buildings, very close to their current centre in Sanyati, Zimbabwe. Their vision is to turn this into a community training hub, offering training to the local community in conjunction with other community and entrepreneurial projects.
